

Compliance Manager

IMS Ltd has over twenty years experience in the International Standards ISO certification and compliance sector. We specialise in providing solutions that give you a competitive edge. In today's economic climate organizations are finding that they have to demonstrate compliance to a broad range of regulations and standards. IMS offers software, auditing and consultancy services in the following:

Quality Management Systems (ISO 9001)

Information Security Management Systems (ISO 27001)

IT Service Management Systems (ISO 20000)

Environmental Management Systems (ISO 14001)

Health & Safety Management Systems (OHSAS 18001)

We have recently launched the Compliance Manager software application to make ISO compliance and maintenance more efficient and cost effective.

Hosted Compliance Manager Solution

Compliance Manager is a Software As A Service application that allows you to manage:

Documents

Add, update, archive and manage your Policies, Procedures, Forms and Templates.

Tasks

Manage tasks, audits, non conformances, corrective & preventive actions, complaints and incidents.

Alerts

Manage e-mail alerts to improve timely close out of corrective & preventive actions.

Training

Manage employee records, training logs and appraisals.

Suppliers

Manage supplier records and performance evaluations.

Reports

Produce reports on Audit Results, Root Cause Analysis, Training and Supplier Performance.

To sign up for a 30 day free trial go to www.ims-certify.com or Tel: 0044 (0) 7894 049780

The application is tailored to the needs of small and medium-sized companies that require the same rigorous quality and regulatory requirements as large organizations. Whether your company needs to jumpstart a move from paper-based processes or expand an existing ISO management implementation, Compliance Manager is an affordable, easy to deploy solution.

A Hosted Management System differs from a traditional in-house solution as the setup and management of servers, installation and configuration of the system and ongoing maintenance, support and upgrades are taken care of by us and not by your own IT staff. There is no requirement to purchase expensive IT equipment and the cost of Compliance Manager, server rental, support and maintenance is rolled up into a fixed monthly payment.

Benefits

A hosted solution is ideal if your organization has:

- A small, overworked IT department or no IT resource at all
- No budget for large capital expenditure on systems or IT equipment
- The need for an electronic ISO management system
- An overworked Quality Manager
- A requirement for an Integrated Management System combining a number of Standards.

Your organization's data is stored on highly secure servers and our experienced team handle your implementation, ongoing support and future upgrades.

Your system data is regularly backed-up and securely stored off-site meaning that in the event of a "disaster" the recovery of data is quick and easy.

Choosing a hosted solution allows your organization to focus on the compliance issues that you face, leaving the technical aspects of the project to our technical experts.
